**Subject:** Truth from NOAA

Mr.Jacobs,

As a U.S. citizen I feel it is imperative that you speak out and tell the country what the truth is about this nonsense of Alabama being in the path of hurricane Dorian . Is it true or not that on the day the president made the statement that Alabama was going to be hit by the hurricane ... was Alabama in the forecast at that time ?.

How are we to trust the information coming from NOAA if for most of the past week you don't mention Alabama as being in danger of getting hit by the hurricane , but then release a statement on Friday that contradicts earlier statements ?.

I think it is your duty to set the record straight and prove to the American people that NOAA can still be trusted to put out ACCURATE INFORMATION .

Thank you  
Mr. Pecoraro
